

Unique advantages of the different Quantum Products:

1. Pendant: **worn around the neck**—is most useful for balance, stability, mental focus and general heart health.
2. Bracelet: **worn around the wrist**—is most useful for motion, agility, flexibility, for joints and pain control.
3. Flask: **rubbed onto the body parts like a rolling pin**: for muscular, nerve and vein health (varicose veins, muscle atrophy and cramp relief)

How to use the different Products:

1. As the medium by which scalar energy works is any liquid and the body is 70% liquid/ the brain is 90% liquid, there is an instant “charge” of scalar energy once any of the products touches any part of the body.

2. The pendant or bracelet may “charge” or “scalarize” any liquid for that matter by simply putting them against the surface of the liquid for 15 seconds (for a regular glass size)—e.g., wines become smooth-tasting, lactose intolerance milk qualities are corrected, coffee turns into “decaf”, etc.

3. If one is able to sleep well regularly at night, we suggest not to use the product at night an hour before sleep. Otherwise, do keep on and it helps facilitate the REM for sleep giving a fully rested result upon wake-up even for short-term sleep.

4. The flask is unique as there is no waiting time for “charging” or “scalarizing” so it is excellent put at the breakfast table for all to drink off.

5. Flasks are excellent for those who go through a “healing crisis” or “detox”. Drinking regularly off these help those with major health problems like diabetes, heart disease and cancer. However if one can tolerate using the pendant continuously (building up from one hour daily till full time use) will be the best option. A combination of the pendant use and flask drink-off is best.

6. Athletes notice a substantial increase in their potentials for flexibility and aerobic tolerance—especially golfers for focus, and drive increase—using the pendant.

Do call or email us for any query or comments on the above. We would love to hear your good health stories using our products.
