

SCALAR ENERGY PRODUCTS

Made out of 76 minerals found in the volcanic ash of Okinawa Japan where people live up to 110 years. Through nano-technology these minerals are fused into products like the ceramic pendants, bracelets, flasks and shields creating scalar energy. Scalar energy works on water media—the body is 70% water, brain is 90%.

Main effect pain control as the brain is the central node of the body's electrical biofield. Each body cell is a mini-battery pumping healthily at 70-90 millivolts. When exposed to radiation depletes to 20 and this is a cancer cell.

Scalar energy adheres to the body's energy program in approx 14 days—totally programmed with it. Hence we do not lend it after it is programmed to us.

Not a magnet, scalar energy works at cellular level creating a change in the molecular constitution. (see picture in flask box). Hence it transforms any liquid—chlorinated water, wine, coffee, milk, lemonade, etc. Changes taste and removes toxicity.

Health effects when the body is freed from radiation are tremendous. Each body energy program is unique. Hence acts differently with each—some instant some longer time to take effect. But affects all. If with strong health challenges, body can go through a detox—headaches, nausea, rashes, fever, foul-smelling urine, etc. Wait it out. If intolerable remove and build usage an hour a day till 24/7 use.

Use to sleep if cannot sleep and reverse if already a good sleeper.

Quantum shields are excellent “family packs” to reduce radiation in our homes by stopping them at their sources. Acts on the water medium 1 foot away or in direct contact with the equipment—shielding the water medium (body) from radiation. Use especially on cellphones, computers, microwave ovens, etc. (see illustration).
